

EMBOSSED FLOOR MATS

During servicing, the floor mat protects the customer's car from water, grease and dirt.

Seaside produces these mats from a heavy recyclable paper with an added embossed texture to help keep them in place and enhance absorbency.

The standard size is 16" x 20". Floor mats can also be produced in smaller sizes to satisfy your particular needs.

Printed with your logo and personalized message, these floor mats become the perfect vehicle to make a good impression on your customer.
